Meeting 3 Minutes
9/25/14

(1) 3D printing
    a. Two different types of 3D printers
        i. Objet30 Pro
            1. High temp
            2. Polypropylene
            3. Rigid opaque
            4. Transparent Rigid
        ii. Dimension 1200es → free
            1. ABS plus
(2) Why arduino over raspberry pi?
    a. Raspberry pi has unnecessary components (Ethernet and HDMI ports)
(3) NEBEC Conference
    a. Travel request form due next week
(4) Fixes for powerpoint:
    a. High heart rate is not an injury
        i. Maybe monitor to see arrhythmia or tachycardia while at rest
        ii. Alarm can sound x number of times depending on range players heart rate falls into.
            1. Quick changes in range can cause alarm to sound
(5) Conductivity sensor
    a. http://www.google.com/patents/US20080039700
        i. band with sensors to measure hydration
            1. bioelectrical impedance measurement
